

Speakers & Moderators Needed

2009

WasteExpo

Share Your Expertise

No one better serves the industry like the industry itself. We want your presentations on innovative systems, dynamic new processes, new business management and development approaches, revolutionary uses of technology, technological improvements in the field, environmental stewardship, employment, and community relations.

Subject Areas

Hauling, recycling, resource recovery, safety, equipment, technology, regulatory compliance, composting, construction and demolition debris, disposal, landfill operations, medical waste, transfer stations, waste-to-energy, climate change, financial issues, human resources, sales and marketing, leadership, community relations and image building, compliance, and anything else affecting waste and recyclables and the people in our industry.

Submit an Abstract

WasteExpo will develop the 2009 educational program beginning in September 2008. Submissions will be reviewed for innovation, relevance, and timeliness. Company, equipment, or product advertisements will not be accepted.

Session Suggestions Welcome

Have an idea, but don't want to present it yourself, please let us know.

To be considered, please submit an abstract of your presentation (250 words please) along with a brief biographical sketch to:

Alice Jacobsohn
Environmental Industry Associations
4301 Connecticut Avenue, NW - Suite 300
Washington, DC 20008
