

5 REASONS WHY... WasteExpo 2019 Will Help Me Do My Job Better

“Building your business is much easier with the help and guidance of WasteExpo and all of the knowledge and support that comes with it.”

— Mario Schito Jr., President, M&S Waste Services, Inc.

WasteExpo is back in Las Vegas May 6-9, 2019 with more innovation, more cutting-edge insights, and more forward-looking technology.

50 years strong, WasteExpo continues to be North America's largest and most influential gathering of the waste, recycling and organics industry.

1: LESSONS LEARNED — Industry experts and practitioners will present a wealth of case studies, research, news, and insights. It's a year's worth of learning over three days.
The Conference Program will be more interactive than ever before—with free Spotlight Sessions on the industry's hottest topics and deep-dive discussions focused on technology, collections, fleet management, composting, organics, safety, recycling, food recovery and much more!

2: SOLUTIONS, SOLUTIONS, SOLUTIONS — 600+ exhibitors will be there, showing off solutions that can help tackle our organization's challenges. The chance to see and touch new products, and meet potential vendors—all in one spot—is worth its weight in gold.

3: EXTRA CREDIT — For taking part in the educational sessions, I'll get a Certificate of Attendance that I can use toward continuing-education credits. It's a win-win.

4: BANG FOR THE BUCK — The investment of a few short days will pay for itself many times over through the invaluable knowledge and connections I'll make at WasteExpo 2019. Also, discounted hotel rates and flights make Las Vegas affordable.

5: SHARING IDEAS — Once I'm back from WasteExpo, I can share practical learning and recommendations with the rest of the team. In turn, the event can benefit our entire department as well as our organization's bottom line.
